Full of characters and movement, smile and openness ! She was also attractive and with a young boy (even he was his brother) ! she was no tamed and a figure of social force against submission, of life against death ! Life against the system...

In the world today, the true social war against the capital war/ systemic repression is at the same time fight against the macabre PLAN of the world plutocracy aimed at depopulating the earth. Struggle against the most gigantic genocide of all times that is in full development, and that, at the same time that affirms its projection to destroy, an important part of the world population, seeks to transform the survivors into domesticated, obedient, submissive beings..., soldiers of their own oppression and exploitation.

In the fight against social repression , we must not forget for a moment the global plans of the financial aristocracy that intends to TERMINATE FOREVER, with the true human community, tearing apart living beings into atomized and concurrent individuals, in beings genetically modified, controlled, intoxicated, digitized, milked, inoculated, pharmaceutical drug addicts, convidized , swamped, superstitious of plandemism, pimps of confinement and the covering of mouths....

That is to say, in real "mobile devices", connected all the time, to the central brain, digitized by Bill Gates and company, which organizes and orders everything that remains for us to live, from daily life, to breathing, from feeding to medication, from birth to the crematorium, from contact with others (distancing) to the covering of mouths, from the screen to "love", from "work" to "leisure"....
